## **ABOUT İKSAD INSTITUTE**

İKSAD is a Turkish origin international accredited young, creative, content organisation established in 2010. Our think-tank team contains academics from different disciplines and countries, writers, strategists, diplomats, artists and bureaucrats who specialize in scientific researches, economic development and social problem-solving.

Here at İKSAD, we are also trying hard to make tangible contributions to local, national, and global development. Through technology transfer and commercialization, our research results should lead to creating new industries and jobs, and ultimately to improving our quality of life. To realize that goal, we are actively promoting worldwide networking of scholars and researchers by giving them opportunity to conduct social and scientific researches and share the outcomes in our platforms, so that they may blaze new trails with a fearless pioneering spirit. Convergence and innovation in education and research never stop on the İKSAD PLATFORM. Interdisciplinary research projects constantly spring up, and ongoing collaboration across the world with individuals, institutes and universities continues to give new inspirations to our members. World-class universities and research institutions, while small in number, play a catalytic role in advancing human affairs and welfare, economic growth, scientific progress, and cultural achievement.

Since having well educated and experienced human resources, IKSAD operates varying scientific researches and projects of importance. Due to the nature of our activities, we have close relationships with universities, international organizations, civil society members, private sector, local authorities and other related institutions.

We invite you to our scientific events

Warm regards

Mustafa Latif EMEK

Chair of Institute
